Elliott Bressler, who has been visiting his parents, Mr. and Mrs. Al Bressler, and during the summer vacation, left Sunday, (or New York City, where he is attending medical classes at the University of Miami. For the past three years, he has been enrolled as a student at the University of Miami.

## Lindsey's Transfer Mischel To Its Key West Branch

"Bill" Mischel, who for nearly a year, has been the manager of the Belle Glade branch of the Lindsey Lumber Company, the past week, received word of his transfer to the management of the company's branch in Key West, which he assumed last Monday.

While here Mischel made a large group of friends and was active in the Lions and in the softball circles and proved himself a pretty friendly type of a "guy." Your local friends in Belle Glade wish you success in your new home town and business, Bill.

Mischel is quite a fisherman, and at Key West, he will have plenty of opportunity to follow this interesting pastime.

Rees states that he could not tell just what happened, except that all of a sudden he was flying through the air and landed in the waters of the canal. He was rushed from the canal-side to the Memorial Hospital where his head wounds were dressed, and he was permitted release. The Stein motor unit was badly damaged. City police were on hand to direct traffic and supervise the removal of the car wreckage.

**Baptist Ladies Meet Tuesday**

school in Belle Glade. Commissioners Harris and Lloyd were named a special committee to study the situation in this matter, as the city will need to do some financing work before it would be possible to close on the option.

The Commission set October 15th, as the date for the start-up of the parking meter collections. Machines are now being repaired and meter heads installed under police supervision.

The Mayor announced that on Tuesday, September 27, Thursday he would be in his City Hall office from 11:30 to 12:30 to meet any or all persons who might have business with him.

Commissioner Dooley and Sam Breyer were named as a special committee to confer with Puhokee officials for a better and improved set up for the Port Mayaca cemetery, which at the present time is not in town, inviting a condition.

The membership of the City Zoning Board of Appeals for the coming year will be C. E. Kidd, Kenneth Lutz, Commissioners Lloyd, Harris and Collins. W. B. Rhodes, local public accountant, contract for making the annual city audit on his bid of \$700.

Allen Greer presented a revised plat of the Al-May subdivision for approval. With the understanding that a street dedication and an improvement clause be added, the plat will be approved. Mr. Greer is at once starting work on the dedication of a group of medium priced dwellings on the north end of the plat.

Inspector Willis stated that the new dog pound at the garage dump would be ready for operation within the next ten days. Tom Watson was told to come back a bit later on a proposition for a city advertising contract.

**RED CROSS**

Continued from Page 1 relative to a family's finances. When a case has passed the scrutiny of our workers, then the local committee finally passes on the grant for rehabilitation.

Mrs. Grace Wise, in charge of the Belle Glade office states that the local commitments for Belle Glade area as a result of the recent hurricane is \$7,476.33. This amount includes all emergency orders written immediately following the storm as well as some written orders that time under the load of emergency.

The local advisory Committee has approved a total of \$59,244, which is included in the above total.

Plans were made to close the office for receiving applications on September 17th, but some cases appeared which were accepted and no further applications are expected to be accepted after today.

Miss Evelyn Maley, Case Supervisor for Florida and Mrs. Annie Cragin, local case worker and Mrs. W. L. Jones, the retiring Superintendent of the Sunday School. He introduced the Reverend Elsie Shirley of Pakhokee, who gave the address of the evening on "Goals for Sunday School Work This Year." Mr. Roy Littlefield was introduced as the new Superintendent for the year. Departmental meetings were held afterwards.

## Fritz Stein's Truck Takes Plunge Into Waters of Canal

On Friday afternoon, Walter Schlechter borrowed neighbor Fritz Stein's truck and platform trailer to handle a cargo of planter machines which he was moving to the Brown Road farm, in charge of Adam Rees, colored operator. Coming back from the farm at a point opposite Frier's garage, a car had stopped quickly, and Rees could not check his heavy rolling truck to prevent striking the car, so he pulled the nose of his truck in between the space of the pine trees, which went into the water at the edge of the canal. The front left wheel of the trailer, struck solidly against a tree and stopped right there.

Rees states that he could not tell just what happened, except that all of a sudden he was flying through the air and landed in the waters of the canal. He was rushed from the canal-side to the Memorial Hospital where his head wounds were dressed, and he was permitted release. The Stein motor unit was badly damaged. City police were on hand to direct traffic and supervise the removal of the car wreckage.

## Churches of Christ, Scientist

"UNREALITY" is the subject of the Lesson-Sermon which will be read in Churches of Christ, Scientist, throughout the world on Sunday, October 2.

The Golden Text is: "The thoughts of the righteous are right; but the counsel of the wicked are deceit" (Prov. 12:5).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The error of the ages is preaching without practice. The finger points to the star, but the eye is not turned to the star. The eye is turned to the star, but the foot is not turned to the star. The foot is turned to the star, but the hand is not turned to the star. The hand is turned to the star, but the heart is not turned to the star. ### Entertainment Program For Ladies At Sarasota An Extensive One

A full program of interesting events is being arranged especially for ladies who accompany their husbands to the sixth annual convention of the Association in Sarasota on Oct. 13 and 14, according to Mrs. J. P. Ridge of Orlando.

Mrs. Ridge, chairman of the ladies hospitality committee for the FFVA meeting, is assisted by a group which includes Mrs. W. W. Stockbridge, Mrs. Fred Brown, Mrs. Clifford Childers, Mrs. Roby Laine, Mrs. Bate Bailey and Mrs. W. E. Burquest, all of Sarasota.

On Thursday, Oct. 13, the ladies will enjoy sunning and swimming on Lido Beach during the day. In the evening they will attend the general reception for FFVA members and associates at the Municipal Auditorium.

On Friday, Oct. 14, they will be conducted on a tour of the Ringling Art Museum, the Ringling home, and the exotic Jungle Gardens. Luncheon will be at famous Zinn's Restaurant.

The evening they will join their husbands for a banquet and dance at the Lido Casino.

Dress will be informal, Mrs. Ridge emphasized.

All ladies attending the convention will receive gifts, Mrs. Ridge said. Children of FFVA members and associates also are invited to take part in the recreational features of the Sarasota meeting, she added.

### Crane Manufacturing A Big Business In Florida

Wooden crates and boxes with a value of approximately \$15 million are manufactured annually in Florida, according to the Florida State Chamber of Commerce.

The Weekly Business Review, prepared by the research and industrial division of the State Chamber, reports this total as 142 percent above the value of these products in 1939.

The manufacture of wood containers of various types is important to the harvesting and shipping of Florida's enormous fruit and vegetable crops.

The latest detailed figures on this industry are for 1947, and show a total of 23 establishments with 3,034 employees, and an annual payroll of \$4,669,000.

These box plants purchased materials, supplies, fuel, electricity and services amounting to \$6,191,000. Costs of these items, plus wages and salaries, amounted to 76 percent of the \$14,972,000 value of the finished products. Out of the remaining 24 percent were paid rent, taxes, insurance depreciation on property and profits.

In addition to the 29 plants manufacturing wooden boxes, eleven other Florida plants manufacture cigar boxes, baskets, barrels and kegs, and employ approximately 670 people.

All of these plants use wood, wholly or in part, as a raw material.

### Citrus Concentrate Becoming The Drink Favored By The People

Popularity of frozen concentrated orange juice is increasing so fast it may soon be listed as the national fruit drink. To Americans supplying 16 million frozen juice, between 9 and 10 million gallons of orange juice were packed during the 1948-1949 citrus season, according to figures compiled by American Can Company. The company's plant here is a major supplier of the six-ounce cans in which the frozen concentrated orange juice pack goes to market.

With the demand for juice in this form increasing so rapidly, conservative estimate place the pack for the 1949-1950 citrus season at 20 million gallons. Since one box of oranges produces a gallon of concentrated juice, this pack would make use of 25 to 30 percent of Florida's orange crop and would require the equivalent of 400 million six-ounce cans.

An indication of how rapidly America's taste for frozen concentrated juice is growing is indicated by the fact that the first pack of the new product, made five years ago, totaled only 225,000 gallons.

Another Florida product rapidly gaining favor with a fruit juice conscious nation is frozen concentrated grapefruit juice, which is new to the market than orange juice. The American Can Company estimates this product will be packed at about the same rate as frozen orange juice two years ago, indicating a pack of about 1,900,000 gallons requiring more than 10 million cans of varying sizes.

### X-Ray Fitting Of Shoes May Be Bad Health Detriment

The Florida State Board of Health is making a study of the possible dangers associated with the use of X-rays in shoe

fitting, Dr. Wilson T. Sowder, state health officer said, here today.

The study is being made in this State as a result of a recent account by two Harvard physicians which stated that improper use of such X-rays was dangerous, especially to children. It may even result in stunting of bone growth.

At the moment, stated Dr. Sowder, "it is impossible to say whether or not any shoe-fitting X-ray machines in this State are injuring the health of persons exposed to them."

"However, according to reports of studies made in Detroit and New York, it is possible to eliminate any danger from use of these machines by taking proper precautions."

Consultation in this State is being furnished by physicians specially trained in X-ray work, Dr. Sowder said.

### Noted Northern Mason Had Many Friends In South Florida

Members of Lake Worth Consistory and Mahi Shrine, and district workers in the DeMolay Order, have been apprised of the recent death of John S. Wallace, a wealthy retired industrialist of New Castle, Pa., on August 25th, after a short illness. He was a 33rd Degree member of the Northern Consistory, and for many years had frequently attended sessions of the Southern branch of the Order in Florida.

He was a man of great personal attraction, who had led legions of friends in Masonic circles all over the northern and southern jurisdictions. He was one of the organizers and promoters of the Order of DeMolay and was instrumental in having Joe Cherry institute Okeechobee chapter in Belle Glade, and had a like interest in the Rainbow Girls, of which our city also has the No. 1 chapter in Florida. He was a personal friend of Judge John Gledhill, who has on several occasions been a guest in his palatial home while attending Consistory sessions in New Castle.

### Lake Worth Ramblers Defeat Jupiter To Capture League Pennant

The Lake Worth Ramblers played the final of the runoff games in the Coast-Glades baseball league, at Lake Worth, Sunday afternoon, and topped the Jupiter contenders by a score of 8 to 1. The Arnott team was not able to overcome a four run lead that the Lake Worthians ran up in the third inning. The Ramblers will now be able to fly the league pennant from the flagpole during the 1950 season.

Clewiston, like Belle Glade, fell away on its playing the past season, and we gain from those who know, that it was from lack of team practice that they did not show up better in the race.

The Coast town teams seem to get a lot more kick out of the scheduled games than do the Glades towns. In Belle Glade, home town support was nil, and the Independents played most of their games out of town. Okeechobee got a late start and had a limited number of play-

ers from which to form a team, but they were game, and played out the season schedule notwithstanding the Catfish were in the cellar position. Boynton did not prove any too hot this season.

### Roy Blair Will Speak Before Convention At Charleston, Oct. 1

Roy Blair, the grass and pasture expert at the Everglades Experiment Station, will attend the convention of the American Brahman Association at Charleston, S. C., and on October 1, will be one of the speakers of the day's program, of

course, on the subject with which he is so familiar, grasses and pastures.

### Oil Store Exploded Over In Domicile At Osceola Camp

The fire department was called to Camp Osceola on Friday morning, to quench an oil stove explosion fire in one of the tenant cabins. The lady of the house was cooking on the stove, and had stepped out of the house for a moment, when the explosion and fire occurred. The blaze was confined to the kitchen and livingroom, and less than an hour later, the fire was placed under \$1500.

## WE ARE BOTH INTERESTED IN THE SAME THING

More Profitable Farming!

Our real business isn't just selling tractors and implements. What we actually have for sale is more profitable farming... "Less Work, More Income Per Acre."

The only way we can make money is by helping you and other farmers make more. So, when we get together, we're both interested in the same thing.

The better we know you and the better we know your farm, the more likely it is that we can be of some real service to you. So, if we haven't been around to see you lately, we'll try to make it soon. It ought to pay us both to get better acquainted.

And, when you come to town, step in. We'll be glad to see you.

**OBSERVATIONS**  
(Continued from Page 1)  
The Belle Glade Herald is becoming jammed with cars during practically the entire day.

The Belle Glade Herald is making an innovation among weekly papers in Florida, in that it has subsidized a page of its issue, to chronicle the comings and goings and doings of the vast negro population in and around Belle Glade. The colored Civic League and School forces are doing real things for the advancement of their race, and are giving full backing and support through their own force of writers, to make the Herald page a success. Some merchants claim that the negroes do not read, but the Herald's subscription list, drug store and street sales belie this statement.

Floridians have become accustomed to paying all kinds of Federal, State, County and City taxes, so an added 3 percent sales tax which faces us on and after November 1st, will be another burden which will be added to tax load. Thank God the Legislature, did give us exemptions on a pretty liberal list of home, farm, and industrial commodities. Representative Bollinger and Elliott in the House cast their votes against the measure.

The soldier city of Zephyrhills, which has been without a bank for the past 20 years, is again to have a bank, a unit in the McNulty chain. Mr. and Mrs. Vincent Peel, who have been the officers at the Bank of Okeechobee have been named as the active managers of the new bank at Zephyrhills. Mr. and Mrs. Warren McNulty, of Melbourne, are shifting to the management of the Okeechobee Bank. Zephyrhills people have been doing their banking business at Dade City, Plant City and Tampa, and are now happy over the advent of the bank, which is to be housed in a fine new banking house on Main Street.

The Chase groves at Ft. Myers, through the Lee Packing Company, shipped the first consignment of Lee County grapefruit to market, consisting of 4,000 boxes. Lee County has a fine crop of citrus, which will aid in making up the deficit by the heavy storm losses in the Indian River section.

The tilt of the drum and bugle corps, the stirring band music, and the veterans marching down the street in true service cadence, with floats setting off the scene, will present a stirring event and picture in Belle Glade on Armistice Day.

In the season wind up games in professional baseball, fans are getting their money's worth of sport, for the leading teams contending for first place honors are putting on world series performances. Tight pitching, close field play, and some heavy hitting are sparking the games. Who wouldn't, if he be a baseball fan, like to see those world series games? Guess, I for one, will have to be satisfied with the radio reports.

The home which Judge Feeder is to provide for his wife and self, will be a dandy, a replica of the Clarence Aspley home on Lake Road. The judge will not need jeopardize his "barbecue pit" to make room for the new structure. The present home is to be related to a back lot location.

As a result of the adjudication of the value of the English pound, which had a marketable value of \$4.03, American investors will now need pay only \$2.80, for this high British money unit. This act was enacted so as to brace the British economy program and increase business both in imports and exports. The common run of British citizens have had a taste of Socialistic government under the Labor Party, and they have not liked it any too much. Empty stomachs and shivering bodies and lack of common necessities never bring ease, comfort or satisfaction to those who have to endure such tenures in life.

Personal politics can make or break any municipality. Selfish interests, manipulated by undercover tactics, oft times stop the wheels of progress. Already Belle Glade people are beginning to wonder if the numerous changes in our own city government will prove to the benefit of the city at large.

American people give liberally of their means to the American Red Cross to meet health and disaster calls. When the call comes the Red Cross is right on the spot to alleviate situations where care, medical and surgical care, and rehabilitation aids are needed. Our losses in the Glades and country from the recent hurricane got just such prompt attention, and some of the liberal local money donated to the Society, has come back

to us in a time of pressing need. The Red Cross is one public service unit that can sustain its value to the good of humanity. Its field is the entire world, it sent plenty of aid and relief to stricken Equador in the recent earthquake disaster, and that boat burning episode at the docks in Toronto.

Government bonds continue to sell well, and Florida, is one of the states where citizens are making large purchases of such securities over 46 million of such securities were purchased in August. In South Florida counties purchases are enumerated as follows: Dade, \$10,250,000; Palm Beach, \$2,588,351; Broward, \$1,675,000. Pretty good securities to possess.

M. Michael, who spent the summer up in Minnesota and Wisconsin, measuring the Norwegian and Swedish people for new clothing garments, has returned to Belle Glade, where he operated during the so called winter season. Ore mining operation are still going on at a big scale in the head of the lakes states. The Glades looks good to Michael.

Several business propositions for the Glades are in the incubation stage, but when the hatching period arrives, the returns will be well worth the time and money expended in securing them. Outside investors are reading and getting more than interested in the investment possibilities of our rich agro-industrial section.

Patrons of the local football games are urged to be helpful and carry out the orders given by the persons who are directing traffic. Much confusion will be avoided if this suggestion is carried out. Liquor drinking will not be tolerated in the stands, or on the grounds, so better leave that rooming stimulating bottle at home, and save police court visit.

There is one boy bicycle rider who is breaking up the six o'clock sleep of residents on S.E. Fourth Street. The galaxy of dogs down there apparently do not like a bicycle rider, and as a result make a merry barking chase after the speeding lad. Don't know whether the dogs

or the boy get the most entertainment, but my prediction, the lad is in for a bad spill some of these mornings, when he gets tangled up with one or more dogs.

A three hour hurricane storm, which sweeps over most of a state, as we had in Florida recently, can cause a vast amount of damage. Losses are now placed at \$55,000,000.

The parents, teachers and pupils at the Belle Glade Negro Elementary School are as proud as peacocks, over their modern school plant. Now when the new athletic field is provided the colored people will be pretty well and satisfactorily fitted up with educational facilities. The school clubs will provide plenty of excellent entertainment for the colored people. More and more each year desirable colored persons are staying here for the year round, providing themselves with better homes and endeavoring to build up the moral condition of the colony.

The American dollar is the most valuable and respected money in all the world and the most sought after by the nations of the world. Uncle Sam has the resources so that he can stabilize his money system. We people sometimes howl, because we think the tax pressure is applied pretty heavy and stringent on our earnings and incomes, but even at that, we are the most favored people of the universe.

We may have our poor and needy, who are fairly well cared for by federal and state funds, but the majority of our population are far from indigent, poor and in need. Most of us have a place to live, clothing to wear, food to eat and still have funds left over for good, wholesome recreation and travel.

Would you change your citizenship, and the opportunity the nation gives you to be free from the "iron curtain," penalties and slavery? The eyes of all nations are on our Nation, for if it succeeds and is provident, then they knowing of our generosity for the underdogs, feel confident that they are going to get some success if it is nothing more than a bone to chew upon.

The American dollar is now

the basis of all commercial business; our American made goods are in demand. We have the shipping to move cargoes to any part of the globe, so our national outlook is not of a discouraging nature. Hurrah, for Uncle Sam and his great power as the leader of nations.

By next season, most all of the schools of the Gulf Stream Conference will be having reserved season ticket spaces in their bleachers, to assist in swelling school athletic funds. Pahokee has formed an Advisory Committee for its school athletic program, similar to the one now functioning in south lake territory area.

Local civic bodies are all showing a spirit of co-operation to aid the American Legion make its big celebration on Armistice Day a success. Things are lining up most auspiciously for this big event. District Legion Posts are planning on giving their support by the visitation large delegations. Belle Glade will likely see the largest assemblage present that has ever gathered here. That Legion parade promises to be something worth while and something worth viewing. The announced barbecue and night football game sound like being good crowd drawers. Our city will have an appearance of war!

### U. S. Navy Family at Home in Nippon

Two Japanese housegirls are shown serving breakfast to a Navy chief petty officer and his family in Japan. There is no talk about the high cost of living among the more than one hundred Navy families at the Headquarters of the Commander, Fleet Activities, Yokosuka. For twenty-seven dollars a month from five to seven rooms furnished complete with electric ranges, telephones, refrigerators and houseboys. Features of the Navy community, known as the Griffin Park Housing Area, include schools, a modern department store, a well-stocked commissary and a beauty salon. (Official U.S. Navy Photograph)
